Paris, December 8, 2008

Dear Mrs Patrizia Brusarosco ,

We are happy to send you **Maja Bajevic's** monography published by Charta at the occasion of her exhibition *Stories* at the Fondazione Bevilacqua La Masa (Venice) in March 2008.

Maja Bajevic has been pursuing an international career for many years (Venice Biennial, Istanbul Biennial, Manifesta, Moscow Biennial, *Air de Paris* at Centre Georges Pompidou, Documenta 12; solo exhibitions at PS1, New York, Moderna Museet, Stockholm, among others). The Dia Center in New York commissioned a special work for their website. It is entitled *I wish I was Born in a Hollywood Movie* and can be viewed at www.diacenter.org/bajevic/. In 2008, she participated to Art Focus 5 in Jerusalem (cur. Ami Barak, Bernard Blistène), to the Poznan biennial (cur. Lorand Hegyi) and to *Méditerranée II*, at Carré d'Art, Nîmes. We have just organised her second solo exhibition at the gallery (Oct 11-Nov 25, 2008).

In 2007, Maja Bajevic made a major video installation entitled *Vertigo*. This video-work is composed of three video projections and two free-floating video screens. You will find enclosed a demo version of this work (a simulation of the three projections on one dvd).

Vertigo was originally created to be exhibited at Documenta 12, but it was not presented due to technical reasons. At this date, this work has not been shown anywhere.

Would you be interested in presenting this work in an upcoming show, we'd be of course happy to send you additional information on the installation requirements.

We look forward to hearing from you soon.

Best regards,

Michel Rein
